To: Governor Jerry Brown  
State Capitol, Suite 1173  
Sacramento, California  
95814

Dear Governor Brown,

As a registered business owner and resident of the City and County of San Francisco, I am lodging formal complaint with the Governor of the State of California citing abdication of duty, legal abandonment and gross negligence by the CCSF Board of Supervisors in oversight

of well documented hazards to human health and safety on going at and adjacent to a land parcel transferred to the CCSF on December 4, 2004 for residential development on a decommissioned Naval Base, Former Laboratories of the Naval Radiological Defense Laboratories (NRDL) and designated Federal Superfund Site located in Southeastern San Francisco.

Despite the fact that I am a registered business owner and 2007 Candidate for Mayor of San Francisco on behalf of protection of workers and neighborhood at the Hunters Point Shipyard, the San Francisco Board of Supervisors has failed to respond to electronic transmission of documents offering irrefutable evidence of the health, environmental and legal safety of this dangerous development activity offered three times, beginning in October 2014.

The San Francisco Bay Area Regional Center funds development at the former Parcel A site now named The Shipyard. It is a Federal EB-5 Center. The EB-5 Program is currently under investigation by Department of Homeland Security Secretary Jeh Johnson for "selling" \$500,000 Green Cards to foreign investors without proper background checks. The San Francisco Bay Area Regional Center is principally owned by former Mayor Willie L. Brown Jr, according to the 2013 investigative research by The SF Weekly Newspaper.
